ings never designed as Jalis. Mounted of lifeers dashed about the city. Motor lorries and other vehicles roared in their waske to pick up loads of police and soldiers were sent into almost every section of the city where suspects or known Sinn Feiners resided.

Every City Exit Blocked.

Today's "offensive" against the Sinn Fein and the "republican" army was considered the heaviest blow struck by the crown forces since the rebellion started. It was to prevent a wholesale roundup that fourteen British intelligence officers were slain last Stunday affer they had gathered much evidence against the Sinn Fein, officials said. The roundup, however, was only little delayed, it was learned.

Blow to Reds.

The crown forces also searched for caches of arms and ammunition which are believed to exist in Dublin. Warehouses were invaded; cellars broken into and seemingly solid waits tapped in the hunt for these secret arsenals. The big Sinn Fein leaders were unable to communicate with one another, being taken absolutely by surprise.

Nothing was known as to what plans they might have for their conduct in jail, or what charges would be brought against them.

Griffith gave interviews to American newspaper men only a few hours before he was taken prisoner. His desk and cheats in his office were found full of valuable papers, no attempt having been made to conceal them.

Trunk Trains Crush.

Toronto, Ont., Nov. 26.—Search was being made today in the wreckage of an eastbound Grand Trunk passenger train which was struck by a freight after it had been derailed here about midnight, for several passengers reported missing. Four bodies were recovered. There were scores of intured.

Six coaches were detailed when they were sideswiped by a switch engine in the freight yards at York, a suburb. Some of the cars fell on the westbound track. Before danger signals could be set, a westbound freight train plowed into the wreckage.

Fractically the entire issue of the i-cigaret crusade centers in the usaman case. Should the law be used, anti-smoke workers will seek secure passage of laws similar to the Kansas measure in other states. Should the higher court annul the Kansas statute, the cigaret campaign would require complete reorganization.

Kansas Is Battleground.

Kansas is Battleground.

Kansas is being made one of the vital fighting grounds in the anticigaret drive in the United States. Enthused because of the Nossaman decision, the campaign against use of the pill took a fresh start. Miss Lucy Page Gaston of Chicago, has been in the state more than a month and is busily organizing for a fight to end use of the cigaret in Kansas.

Fitted against the Gaston forces are thousands of cigaret smokers who oppose any regulation denying smokes to adults. The American Legion is strongly opposed to the present cigaret law and a move may be made before the next legislature to secure repeal of the existing law.

To Be Settled in Courts. In the meantime the right of a state control the manner in which toto control the manner in which to-bacco may or may not be used, is to be settled by the highest court in the land. Nossaman's attorneys did not contend that Kansas could not enact valid laws against use of tobacco in any form. But when they passed a law forbicding use of cigarets and cigaret papers, it was asserted that the constitution has been fractured. The sate cupreme court, tho, said that the law was sound and affirmed the judgment of the Harper county dis-trict court where a fine had been as-sessed against Nossaman.

Governor Allen today appointed J.
C. Mohler, secretary of the state board of agriculture, as a special representative of this state to attend a corn conference in Harrisburg. Pa., next Monsas at the conference which will be attended by governors from a number of corn producing states.

The meeting was to have been the second of the series in which the Hotarians are participating, meeting with the grange members and discussion of marketing conditions and troubles now ahead of corn producers. Enormous slumps in corn

FIGHT NEW RATES

Business Men to Fight Raise in Phone Rates.

Urge Chamber of Commerce to Take Action.

ASK CITY TO INVESTIGATE

Topeka business men are not inclined to accept the increase in telephone rates granted this week by the Court of Industrial relations, without a fight. They have been calling the secretary and president of the Chamber of Commerce today to urge that body to "do something" and the matter was vigorously discussed at the meeting of the board of directors today.

The protestants, chiefly wholesalers and jobbers, say they want to give the phone company a fair deal, but that the increase coming at a time when all other costs are going adown seems. In the rocks and shawnes county, Tuberculosis cost 150,000 lives in the nation last year. In Kansas nearly 1,000 persons died of the disease. In Topeka and Shawnes county, fifty persons were victims. To reduce this death list and to furnish information and treatment this Tuberculosis association is swinging into action. The seals will be on sale in the larger stores and in other public buildings in a few days. Health bonds also will be sold. The seals sell for one penny each.
